

Lisa Griffin

Promoted to Sr. Vice President,
Turner Entertainment Networks

I am pleased to announce the promotion of Lisa Griffin to SVP Finance for Turner's entertainment networks. In this role, Lisa will expand her oversight within the entertainment segment to oversee Program & Acquisitions Finance, TNT/tbsOriginals and StudioT, unifying business support under her leadership. With this expanded role, Jose Campos and Greg Lytkowski will now report directly to her.

Lisa joined Turner nearly 20 years ago as an Accounting Manager and I felt certain from our first meeting that she was destined for great success. During her tenure, she has worked closely with network leadership through periods of significant change and led several strategic business reviews resulting in increased revenues and optimization of resources. She has also been instrumental in helping the networks reimagine television and bring new consumer and video centric businesses to Turner.

Her leadership in the Finance & Accounting organization extends well beyond Turner. Lisa is active in her community volunteering and currently serves as member of the National Black Arts Festival Board and NABA's Corporate Advisory Board. She is also an executive sponsor of Turner's NABA Committee and co-chair of Turner Women's Strategic Alliances Committee.

Lisa is an invaluable member of the leadership team and her courage, passion, and self-assurance are a textbook example of 'it's not what you do, but how you do it.' She delivers results by instilling people with meaning, mission and personal growth.

Please join me in congratulating Lisa on her expanded role within our organization.

John Heath
